

MEMORANDUM FOR: Chief, Plans and Programs Staff, OL

FROM : [REDACTED]
Chief, Supply Division, OL

SUBJECT : New Communications Support Requirements
for FY 1981-1985

REFERENCE : Verbal Request from P&PS

1. The Supply Division communications requirements, including [REDACTED] for the fiscal years 1981 - 1985 have been examined. As a result of this review the following is a summary of our requirements:

a. Requirements for FY 1979 through 1984

(1) [REDACTED] - Restatement: There is a requirement to increase data transfer rates between [REDACTED] and the Office of Logistics (OL) in [REDACTED] for computer speeds of 9600 baud. This increased rate would satisfy Supply Division (SD) and Procurement Division (PD) planned minicomputer applications.

(2) [REDACTED] - New: An innercore office area will be constructed during FY 1979 and possibly into FY 1980. This construction will require relocation of telephone lines (black and green) and four additional Delta Data terminals. (There are approximately 55 work stations involving 35-40 instruments for the unsecure network (black). There will be a need for seven secure (green) lines and approximately ten instruments).

(3) [REDACTED] - Restatement: The requirement still exists to establish a secure voice line between [REDACTED]
[REDACTED]

(4) [REDACTED] - Deletion: The Delta Data terminal and reader-printer will no longer be required at [REDACTED]
[REDACTED]

SUBJECT: New Communications Support Requirements for
FY 1981 - 1985

b. Requirements for FY 1985

There have been no known requirements identified for
FY 1985.

c. Services Now Received Which Can Be Reduced or Eliminated

No changes anticipated in these services.
